

Catch A Rising Star

Do you have a friend or family member who would like to learn music?

Tell them to learn here, at FMAA, just like yourself. Send them our way and make yourself, & your friend, \$20.00 and a chance to win big in our raffle!

How does it work?

Our "Catch A Rising Star" (CARS) bi-annual program starts the first of January of each new year and the first CARS concludes the last week of June of that same year. At the end of each CARS program, we will have a drawing for a grand prize, it could be you! The first CARS drawing will be in the first full week of June (right after school breaks for summer).

The second CARS program will start on the following day after the June drawing and conclude December 7 of that same year. This CARS raffle prize will be awarded at the Winter Wonderland Showcase in December.

With every "*qualified" referral you make to FMAA you will receive a \$20.00 gift certificate to one of several popular vendors, i.e, Starbucks, High Top Cafe, Target, Amazon (vendors may change, please note that not all are available at all times) and your friend will also receive a \$20.00 gift card of their choice.

At the end of each period we will have a drawing for a great prize. Last year, for our first give-a-away, we gave an iPad. The second give-a-way was dinner & a show for four at Roger Rockas. This year? Who knows what will be next?

So, what is a referral?

A referral is a friend or family member who you suggest take lessons here at FMAA. When your friend has completed our registration form and committed for a minimum of one full month they will be a member of Fresno Music Academy & Arts and both you and your friend will get a gift card worth \$20.00 to one of the above listed vendors. This is a *qualified referral.

Start now. Use the enclosed form to Catch another Rising Star. Either mail it to us or bring it in at your next lesson, we will handle it from there. Or, go to our website: www.fresnomusicacadem.com/referral and complete the form there. It's that easy.
